Using a dictionary

- When you use a dictionary to check the meaning of a word, put a **tick** (✓) next to it. Each time you return to a page with a tick, **see** [find out] if you remember the word.
- When you meet a new word or phrase in a text, first try to **guess the meaning** [try to think of the meaning when you don't know it]. Then, use a dictionary to see if your **guess** was correct.
- Don't just read the dictionary definition. Example phrases and sentences show you how a word or phrase is used, and they help you to understand the meaning more clearly.
- If you look up a word in a bilingual dictionary and get two or three different translations, check these words in an English dictionary to see which translation is the best one for the situation.
- Remember that many words have more than one meaning. The first meaning in the dictionary is not always the one you want. You may need to read through the different meanings.
